## **Aspen Aerogels**

### **REACH Statement Regarding Substances of Very High Concern**

The European Union's Directive 2011/65/EU, Restriction of the Use of Certain Hazardous Substances (RoHS2) in Electrical and Electronic Equipment and as amended by the March 31, 2015 Directive 2015/863 (RoHS3) requires that certain electrical and electronic products not contain the following hazardous substances, (except for trace impurities):

- mercury
- cadmium
- hexavalent chromium
- lead
- polybrominated diphenyls (PBB)
- polybrominated diphenyl ethers (PBDE)
- Bis(2-Ethylhexyl) phthalate (DEHP)
- Benzyl butyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

Aspen Aerogels does not use any of these substances in our products. Aspen had a representative sample of our aerogel analyzed for cadmium, chromium, lead, mercury and phthalates as referenced above by a certified testing laboratory. No substances were detected above the RoHS limits.

Mary Lynn Seremet
